

ENERGY MANAGEMENT POLICY

NFL conserves energy in the most efficient, cost-effective, and environmentally responsible manner possible.

To achieve these objectives NFL is committed to:

- Comply with all energy management laws, regulations and Codes of Practice in existing operations, upgrades and new developments through the establishment of its energy management system.
- Encourage practices that seek to maximize the use of innovative technology in improving energy usage and practices.
- Improve constantly employee awareness and encourages the sharing of experiences and expertise through the internet and relating to other manufacturers.
- Plan activities towards improvement of energy efficiency, budgets and provides the resources to realize this energy policy.
- Plan continual review of our energy performance objectives and targets
- Create awareness of this policy to the entire stakeholders
- Encourage consultation within NFL, supply chain and with other relevant bodies, about energy management matters.

This policy shall apply to all of NFL facilities, business units, employees, and contractors in service to our business.

Vassily Oye Barberopoulos
